We would like to express our cordial thanks to all who helped make this conference a success. We have much pleasure in thanking several organizations, in particular: **the Senate of the Parliament of the Czech Republic, and especially its Committee on Education, Science, Culture, Human Rights and Petitions; the Academy of Sciences of the Czech Republic and its Institute of Physics; and the Charles University, its Faculty of Mathematics and Physics and its Institute of Physics** for their support and the very efficient help during the conference.

Several persons from these institutions deserve special recognition due to their role in the rise of the FQMT '08 conference:

Our thanks belong especially to the accountant of the Institute of Physics of the Academy of Sciences, Eva Lhotáková, for her help with the conference finances, its banking and especially for her help and her patience when dealing with currency changes. We also appreciate the technical assistance of Martin Faltys of Institute of Physics.

We also acknowledge Jana Brzobohatá and Barbora Mořkovská of the civic association Práh for supply of beautiful conference bags.

Our very special thanks go to: Marlan Scully for his dedicated support to the whole Conference, especially for his successful solution of the extraordinary situation which prevented, at the last minute, his personal appearance at the Wednesday evening lecture, enabled by his providing us a magnificent video production of the key elements of his lecture which was enjoyed by all the participants; to Raymond Chiao, who so graciously accepted our request, also at the last minute, to participate in the Wednesday evening lecture in view of the absence of Marlan Scully; and to Gora Shlyapnikov, whose Thursday evening lecture was at once both scientifically enlightening and thoroughly entertaining.

Last, but not least, we would like to thank all chairmen of the respective sessions and all members of the Scientific and the Organizing committees, in particular Roger Balian. Without their tireless efforts the conference would not have been possible.
